Happy Hen

Free Range Eggs

locally produced

Happy Hen Free Range Eggs from Whittles Farm, Mapledurham, are your local family run egg delivery service. Our **Berkshire Browns** are laid by genuine free range hens, unlike some where the hens hardly see the great outdoors, our hens are free to roam and feed on pasture.

Our hens are housed in smaller, less intensive flocks and have food free from G.M. ingredients, that is available to them 24 hours a day, together with water that is free from added chlorine and comes from Mapledurham's own source.

All this combined with the very highest standards of care and attention to detail, help make our **Berkshire Browns** outstanding eggs, with strong thick brown shells, a wonderful flavour and lovely natural rich yellow yolks.

Berkshire Browns are delicious on their own or the ideal ingredient in countless recipes.

Available in the following sizes: small, medium, large and extra large.
