

Whitchurch-on-Thames Annual Assembly

Chairman's Update: A Review of the Past Year in Photos

20 May 2021

Jim Donahue

This time last year...

A year unlike any other

We all had to adapt and help neighbors with prescriptions, groceries and other needs

We're working hard to keep you safe

- To help keep you and our team safe, only 2 people are allowed in at a time please
- Please stand 2 metres apart when waiting
- If you have a high temperature or persistent cough, please do not enter our pharmacy
- Check out our new opening hours, details can be found on the door

We know waiting can be frustrating, but please be patient and polite.

We're working hard to keep you safe
Please stand 2 metres apart when waiting

We know waiting can be frustrating, but please be patient and polite.

We're working hard to keep you safe
To help keep you and our team safe, only 2 people are allowed in at a time please

Local businesses also had to adapt

We made the most of our daily exercise

Lockdown and Social Distancing?

Pangbourne still has a much larger rubbish problem than Whitchurch

New signs in place and byelaws have been considered

The year we all went to the park— Sunday Times Article 6th May 2021

A BIT PARKY Visitors to Richmond Park in southwest London this year wrap up for a stroll, or to enjoy a piece of cake. Previous pages: fun and games in Lee Valley Park, east London

The story of the Village Green fence

The Coombe Park fence is now looking great

The Village Hall is also looking good and due to open soon

The new Polish Church Memorial garden will also open soon

Manor Road Playground has been cleaned and cared for during the lockdown period

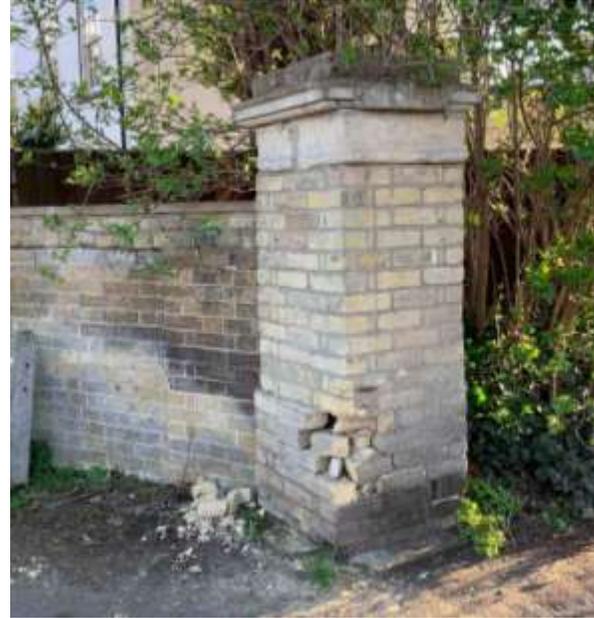

The Manor Road Conservation Area and Village Green Trees and were looked after this year

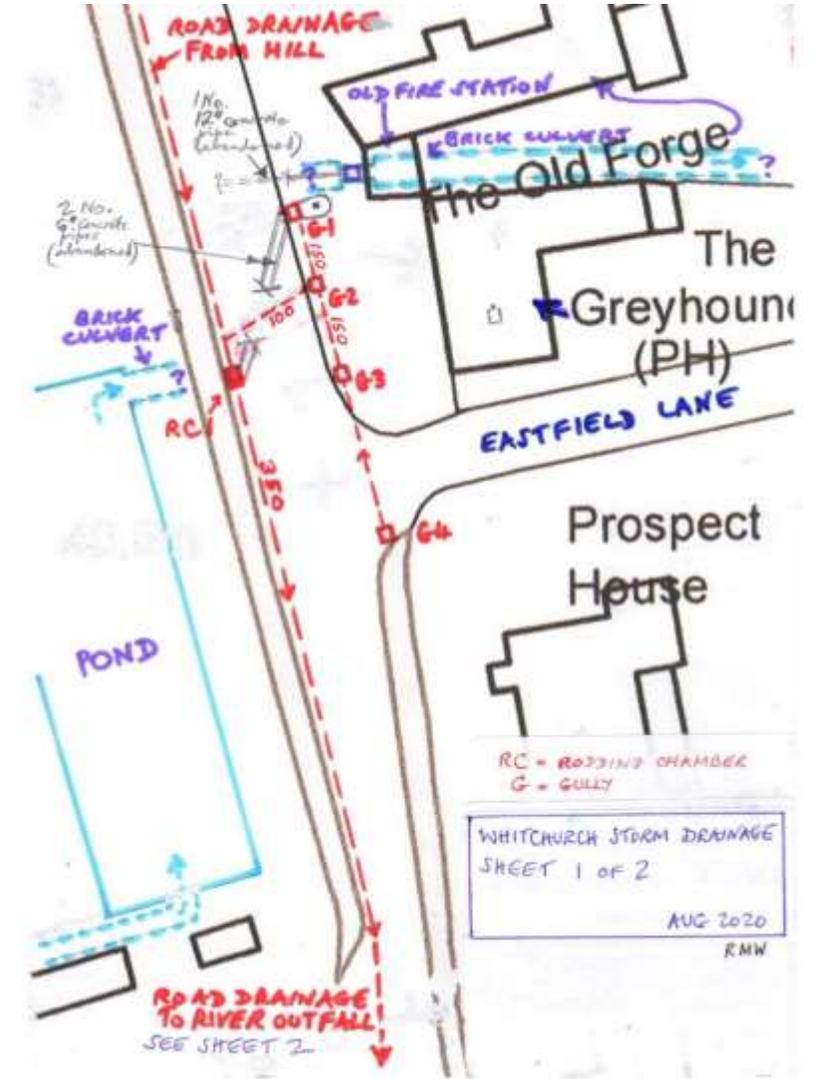

**The new pavilion feasibility has been stopped,
but the Tea Hut still needs to be replaced**

A number of other improvements were made this year and things wore out or were broken

And then more unexpected events enabled improvements from OCC

A tragic cycling accident also spurred OCC into action

OCC are also helping us to address Pedestrian safety

A newly revitalized TAPWG are well positioned to achieve long sought goals of Residents Parking and 20 mph speed limits

The PC worked with OCC to refresh all the pavements in the village - Hardwick pavement needed a complete resurfacing

Pavement in Swanston Fields and other roads were repaired and then had a “slurry seal” resurfacing

Including Manor Road

And the High Street

Finally, remembering those we said goodbye to...

We want to support community groups returning this year

We'll be together again soon!

Thank you all for being here tonight to celebrate our community!
