**APPENDIX 1 – CHAIRMAN’S ANNOUNCEMENTS – Cllr Jim Donahue**

**Eastfield Lane Condition** – No updates this month, but will look at raising more FMS pothole reports now that the weather is getting dryer.

**Update of 9 Priority issues for OCC Highways** – Only issue that has been closed is that the bent bollard on the lower narrows has been fixed. OCC also say that Annual drain clearing started in Whitchurch at the end of January. They provided no real proof of this, but there is anecdotal evidence that some drains have been cleared and drains in the village are still in generally good shape due to a number of drain clearing initiatives over the past year or two.

**Flood Prevention - Eastfield Lane Culvert Topological Survey follow-up**

- We seem to have avoided major river flooding so far this year.
- I am still waiting to hear back from SODC on recommendation that the ditches behind Eastfield Lane be cleared of silt leading to the river making use of the £20k budget that the Parish Council could use for this. We have gained consent from affected riparian landowners and SODC is investigating suppliers to do the work.
- Romilly and I have complete Flood Warden training. OCC rep would like to come out to visit us to formalise this.

**Tea Hut draft design** has been prepared by Architect that I have shared with Councillors.

- We have now received more detailed building regulations for the Tea Hut required to develop cost estimates.
- Payment of £1,029 is required for these regulations.
- Will require Clerk support to send out request for quotes.

## Resident issues:

- **Sewage leak at playground manhole:** A resident on Manor Road raised an issue that the sewer manhole cover on the playground was overflowing. I asked them to raise this to Thames Water.
  - This was near the leaking sewer pipe under the road where a sink hole was raised from last year.
  - Thames Water responded fairly quickly and shut down the sewer line from the Eastfield Lane pumping station through use of large tankers. They identified the issues as an old leaking pressure release valve under the manhole cover.
  - Thanks to Cllr Higley and the playground WG team for staying on top of the situation and notifying the website that the playground should be temporarily shut down.
  - The leaking valve has now been replaced, the area decontaminated, and the playgroup is reopened.
- **Streetlight on Lower Narrows:** Cllr Leach raised issue of streetlight at lower narrows by the Old Stables. Has this has now been resolved.
- **Thames Path repair:** I raised a report to OCC on the dangerous condition of the deteriorated Thames Path on the Hartley steps. The Countryside Officer is aware of this and they are following up.
- **Metal Detecting:** A resident requested permission for their son to perform metal detecting on the Village Green and Maze area. The Parish Council is discussing how this can be accommodated whilst ensuring that the playing field is not damaged.
- **Village Green water leaks:** I met with Cricket Club Representative Andy Heas. We are preparing to get quotes for the VG plumbing repair. Request support from Clerk to communicate with suppliers for quotes.
- **Storage Facilities on Village Green:** Hannah Dunbar has asked for a storage facility for her outdoor exercise classes on the Village Green. We don't have anything like this now. She asked for permission to place a locked storage box near where the old tea hut was. As discussed in tonight's meeting. The Parish Council does not have an issue with this but cannot take responsibility if the box is damaged or stolen.
- **Date for Annual Parish Meeting:** Needed by end of May. We are now proposing 7<sup>th</sup> May. Brian will send out initiations. Pangbourne Annual Parish Meeting Tuesday 28th April 2026.

## APPENDIX 2 – DISTRICT COUNCILLOR'S REPORT – Cllr Peter Dragonetti

### New Year – New Budget

At a meeting of the Council a couple of weeks ago, the budget for the coming financial year was agreed. Unlike many other councils, and indeed South Oxfordshire itself under the Conservative administration, SODC now has a good financial position and is not drawing on reserves to balance the budget.

One of the factors causing the positive position is the greater than expected income from investments, which was boosted by a interest rates being higher than anticipated. In the coming year, there will also be income from the new packing waste tax, pEPR. This has been introduced to reflect the increasing cost of councils handling the ever greater volume of packaging waste, not least that generated by online shopping.

The District Council is responsible for collecting council tax, but only a small proportion of it actually comes to the District Council, as the big spenders are the County Council and police, and surprisingly often town and parish councils take more than the district.

The biggest part of SODC's day to day expenditure is basically staff salaries and similar people costs, and like all organisations that cost has increased with inflation, and so the Council tax has also increased, by the maximum allowed by the government of £5 to £156 for a band D property. This is the 10<sup>th</sup> lowest in the country for similar districts, where the average is £221

The council is continuing to invest in housing, buying existing homes as well as, in Didcot, building a small block of flats on the Broadway.

### Head of Planning

Adrian Duffield, who has been head of planning for many years, has retired. I am not aware of the new head. There is a new chief executive, Adrianna Partridge, who was previously one of the deputy chief executives.

### Local Government Review

There are no developments in respect of this matter, as its all now down to a government decision as to whether we are to be one Oxfordshire or something else.
